**Subject:** Please revise the Portland Harbor Superfund Cleanup Plan

Dear Administrator Gina McCarthy,

I'm writing today to ask you to significantly revise the Willamette Superfund Draft Cleanup Plan. The current plan would leave more than 85% of the site contaminated, negatively impacting human health & wildlife health for decades to come. More than a hundred businesses & other entities are responsible for the pollution & should be held accountable! Please improve the plan by doing the following:

1. EPA should select Alternative G with additional dredging in areas of high human use, & high ecological value
2. EPA should set much clearer timelines & metrics for success
3. EPA's cleanup plan should include the heavily contaminated uplands as well as the river.
4. EPA should do a much better job of addressing environmental justice issues
5. EPA should eliminate the confined disposal facility

Thank you for your time.

Sincerely,

(b) (6)

Corbett, OR 97019
